Lbrands

Information security is a top priority at L Brands. We now require two forms of authentication when you log into systems that contain sensitive data.

1. Download the PingID app from your phone's app store.
2. Click the "I already installed the PingID app" button below.
3. Follow the on screen enrollment instructions.
4. By completing the enrollment process and selecting your authentication preference, you agree that we may authenticate you through the use of biometric (touch ID), text messages, autodialed/prerecorded voice calls, email and other forms of authentication as they become available.

Enter your email address   Get Download Link

I already installed the PingID app

Finish Pairing Ping iD

To complete the pairing process, simply open the PingID app on your mobile device and scan the following QR code. You can also manually pair your device using the pairing key below.
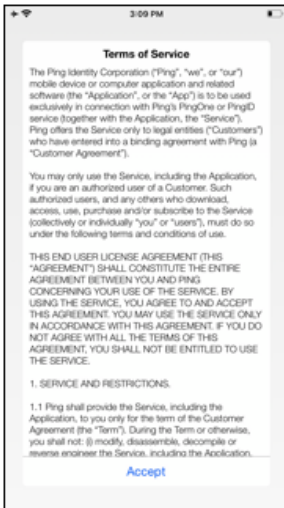

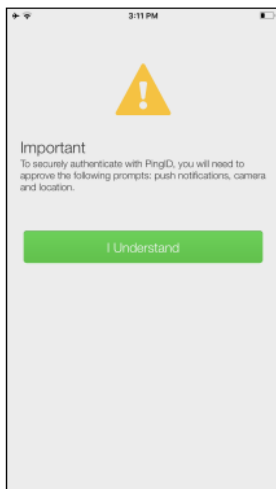

Start Over
Pairing Key:

Install PingID app on the mobile device

Open the App and select **Accept** for Terms of Service

Select **I Understand** for important notice

**Allow** PingID for Notifications and **OK** for Camera

The app should be ready to scan the QR code on the email

Select **Keep Only While Using** and **Allow While Using App**

Choose a **Nickname** (An example of your nickname can be your network ID) and select **Done**

Once authenticated, you should be all set.
